1101-1137 Battery Ave. (East side)  
Baltimore, Md.  
Private access

c.1855-1875

The east side of the 1100 block of Battery Ave. is improved with a number of different types of houses. 1101-1103 Battery Ave. is a pair of two story, two bay wide brick houses with gable roofs, set on high basements. The houses were built in the early 1850's and are typical of the type of small house built for low-income families in this period. 1107-1107, 1109-1111, and 1113-1115 Battery Ave. are pairs of three story, two bay wide brick houses with shed roofs and bracketed cornices, built in the period 1855 to 1865 by three different builders. Extending south from 1117-1123 Battery Ave. is a row of two story, two bay wide brick houses with shed roofs and simple brick cornices, built in the early 1870's. 1125 Battery Ave. is a three story, two bay wide brick house with gable roof, and to the south, at 1127-1131 Battery Ave. there is a group of two story, two bay wide brick gable-roofed houses, built in the late 1860's. Finally, at 1133 and 1135-1137 Battery Ave. there is a group of three story, two bay wide brick houses with gable roofs, built about 1866.

**DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE**

This two story, two bay brick house with gable roof represents a late version of the gable roof style, having been built c. 1870. The house has been covered with formstone.

The house is two stories in height, 14' wide, and occupies a lot 82' deep. There is a two story high, three bay deep rear addition. The house is constructed in running bond but the facade has been covered with formstone. The low-pitched gable roof has a two-tier brick cornice which has also been covered with formstone. There are no extant roof chimneys but there is a rear end chimney located at the east end of the first two bays of the rear addition.

Although the original treatment of the door and window lintels and sills has been hidden by the formstone covering, it is apparent that all of the openings had segmentally arched brick lintels with solid wood tympanums. All of the window openings are filled with 1/1 double hung sash. A panel door with upper lights is set beneath a single light transom. The house sits on a high basement, the entrance being reached by four brick steps. There is a rectangular basement opening located to the left of the steps. A flat-roofed alleyway runs back under the southernmost bay of the house.
